## parking & drop off zone

As accessible parking in the area is limited a drop off zone will be available during operation hours at the rear of the Town Hall. Please enter via Town Hall PI and exit on the Art Gallery side of Burelli St. Volunteers will be on site to help visitors and direct vehicles. Limited permit parking spaces for Wheelchair Buses will be available at the parking lot at 13 Stewart St.

Volunteers will be on site to help visitors and direct vehicles and limited parking permits for Wheelchair Buses will be provided.

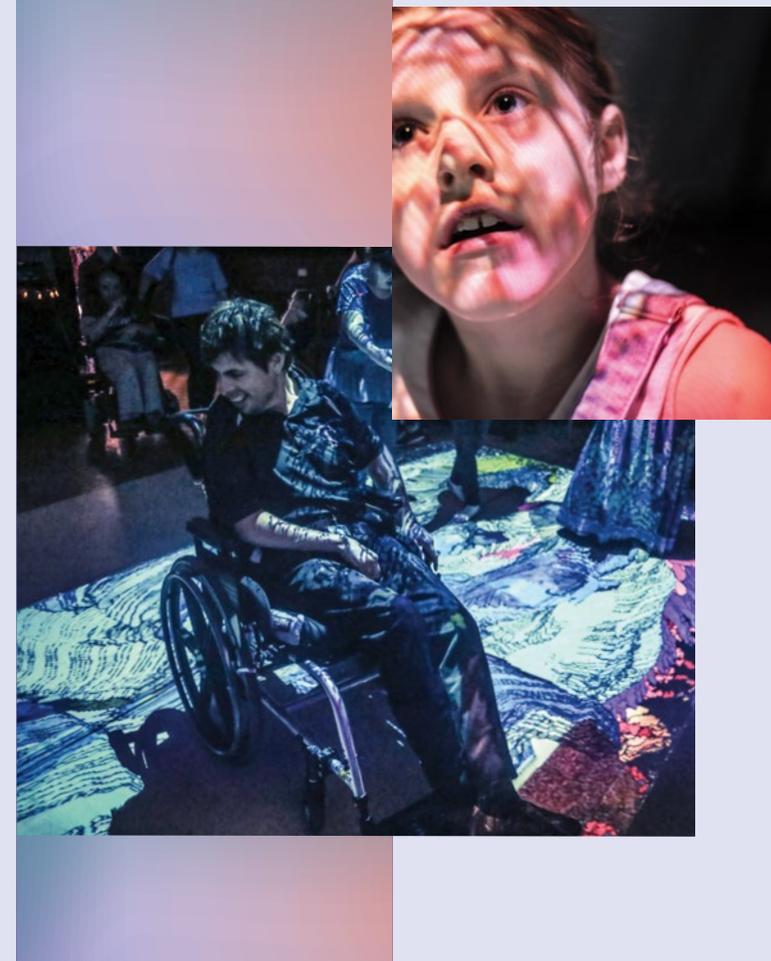

For further information and enquires visit [merrigong.com.au/shows/blue-rose](http://merrigong.com.au/shows/blue-rose)

Or contact Phillip Crawford at [phillip@be.org.au](mailto:phillip@be.org.au) or 0427 697 173

Free Public Event  
Illawarra Performing Arts Centre  
13th & 14th September 2018

A free, interactive sensory film installation for all abilities and all ages.

Interactive Sensory Installation

# blue rose

## Welcome Room

**Location: IMB Foyer**

This is your first stop on the Blue Rose experience. Here the Blue Rose team will greet you. Our friendly team are here to help guide you through the installation, answer all your questions, customise rooms to better suit your needs and foster interactions and conversations. The welcome room is a light, open space. You can sit at the table and take in the delicious aromas of the space. Draw and colour on the table and maybe even make new friends.

## Echo Floor/Silent Disco

**Location: IMB Stage**

The Echo Floor is like a technicolour swimming pool. As you move across the space, your shadow creates an echo that leaves spectacular rainbows in your wake. If you choose, you can also use one of the wireless headsets to bring music to your movements

## Spaceship

**Location: IMB Stage**

Come aboard the SS Rose! At the entrance, the crew will greet you and direct you to the wheelchair accessible spaceship cockpit with room for your co-pilot! Use buttons and levers to zoom across the galaxy, trigger sounds and even make the jump to hyperspace and feel the "whoosh" of air as you are propelled to light-speed.

## Enchanted Forest

**Location: Bob Peet Studio**

Enter into a calming digital and tactile forest. Relax inside your very own cocoon with 360 projections, as a soothing soundscape plays into the room. Our volunteers will bring you a bounty of objects to touch and feel to stimulate your senses. Soft, smooth, cool, rough; things that crackle and crunch and things that slip and flow. Or help yourself to objects hanging from the soft branches of the willow trees that encircle the indoor grotto. This space can be modified for people with light sensitive epilepsy. Please inform staff or volunteers and we will make sure projections are off and lighting is still and low before you enter the space.

## Shadows

**Location: VOM 1**

This room is all about cause and effect. From the moment you enter, your shadow will play on the walls. Video material on a suspended screen reacts to your touch: From a still pond comes a ripple of water, slow moving leaves are picked up by the wind, clouds sweep across the sky, all at your command.

## Beatdice

**Location: VOM 2**

Be the band with Beatdice. Using the illuminated cubes you can build a light sculpture. Each cube controls part of the music. Rearranging the sculpture rearranges the song. The cubes are embossed on each side with dice like patterns so they are accessible for those with low vision. Beatdice empowers everyone to participate in a musical collaboration regardless of your physical skill with an instrument.

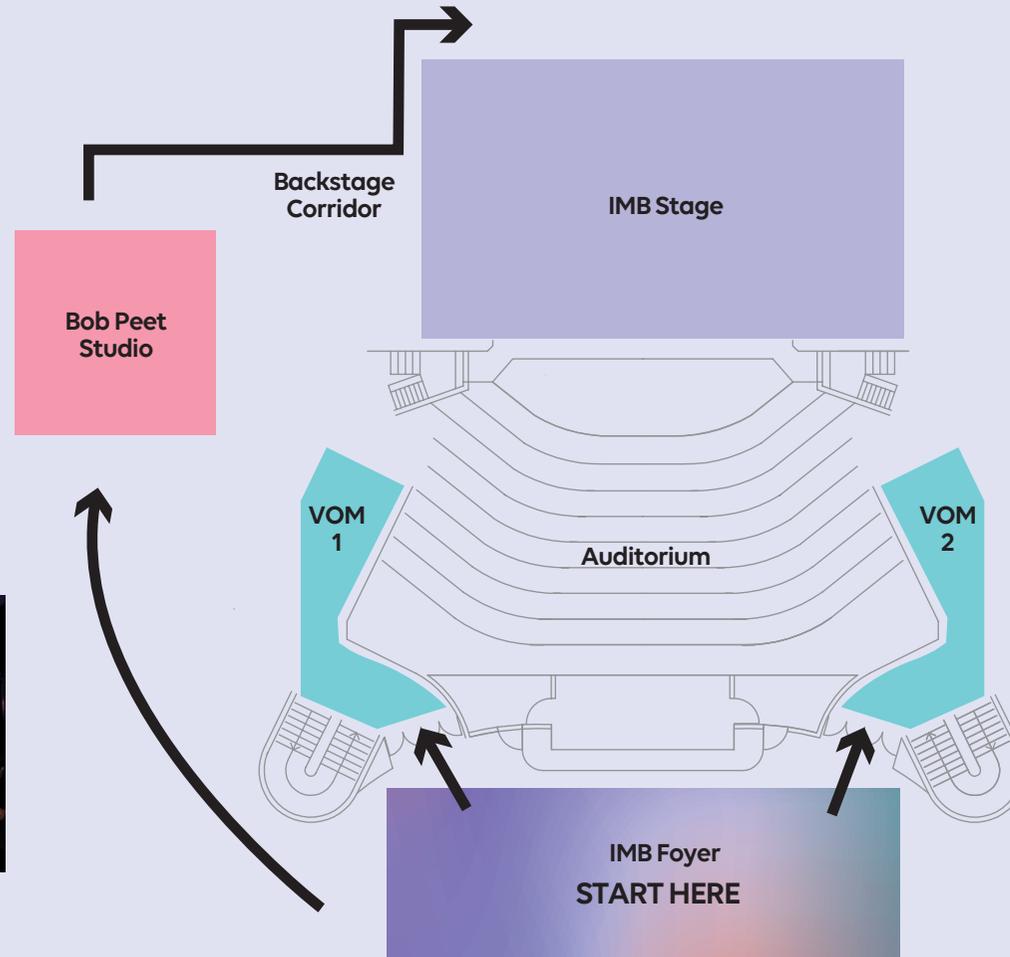

## Cinema Cubby

**Location: IMB Foyer**

As you enter the IMB Foyer, you'll find it very hard to miss the colourful Cinema Cubby House. Like a giant rainbow igloo, the Cubby is set up for a small audience to watch short films that have been produced by and with people of all abilities. Documentaries, dramas and comedies will play throughout the day. Pop-in for a lucky-dip of stories.

## Outdoor chill out space

Need to pop out? Get some air? Be in an open space? Come and chill out near the arts precinct. Bring a picnic and relax in the shade.

**\*All spaces can be modified to suit individual needs. If you feel like you or someone you are with would enjoy a space, but are concerned about the levels of noise, light or movement. Please talk to our staff and volunteers and we will endeavour to make sure you get the most out of the Blue Rose experience.**
